SIGNATURE

“Distinctive characteristics by which
a company or product can be identified”

Manifested through award-winning
design, aesthetic and quality.

INTRODUCTION

From social occasions to peaceful moments of reflection, our AW21 collections explore ways to connect us with each other and the world around us. Textured surfaces add a tactile dimension to vases and candleholders, which may stand alone as decorative pieces, or further enhance interiors with candlelight and simple arrangements of flowers and foliage. Hand-painted metallic and iridescent finishes decorate contemporary glass shapes, adding a sense of occasion to gatherings with friends and family.

A handwritten signature in dark ink, reading "Monika Lubkowska-Jonas". The signature is fluid and cursive, with the first name "Monika" being more prominent.

HERITAGE

Janusz Lubkowski co-founded LSA International in 1960s London. In an environment synonymous with cultural and social change his belief in a diversity of ideas and a passion for contemporary design ensured the company thrived. Through shared experience and inherited values Monika Lubkowska-Jonas continues to develop her father's vision and a culture of understanding that defines our company's past, present and future.

CRAFT

Through the skilled use of hand tools and an understanding of high quality raw materials, our craftsmen use traditional techniques to transform mouth-blown glass into products of intrinsic value. Considered, handmade products that we care about, products with integrity.
