INTRODUCTION

Our Standard Collection is designed with versatility in mind, created to bring people together. Modern shapes made from tactile materials enhance our spaces and create environments in which to enjoy the company of others. Throughout the Standard Collection we continue to use materials that have been sourced with care and attention.

Monika Lubkowska-Jonas

OUR PILLARS

HERITAGE

Through the skilled use of hand tools and an understanding of high quality raw materials, our European craftsmen use traditional techniques to transform mouth-blown glass into products of intrinsic value. After basic forms are blown, each piece is finished accordingly using a range of detailed processes. Our experience with the material enables us to experiment and push the boundaries of hand production, using the craftsmanship and skill of European producers.

DESIGN

We design for people with the simple aim of understanding the purpose and environment of a product. Thoughtful, considered design. A conscious approach to create pieces with intrinsic value, to be used and enjoyed year after year.

2014, 2017, 2018, 2019 - iF Design award

2016 - DesignPlus award

2016, 2017, 2018, 2021 - Good Design award

2020 - Green Good Design award

CRAFT

Through the skilled use of hand tools and an understanding of high quality raw materials, our European craftsmen use traditional techniques to transform mouth-blown glass into products of intrinsic value. After basic forms are blown, each piece is finished accordingly using a range of detailed processes. Our experience with the material enables us to experiment and push the boundaries of hand production, using the craftsmanship and skill of European producers.

ENVIRONMENT

Our intention is to create useful, versatile and relevant products which endure in quality and style. By designing lasting, considered products we encourage people to make sustainable choices: buying less and owning for longer. A responsible approach to design which aims to create something of value to improve our surroundings.

ARC

A versatile, utilitarian drinkware collection that plays on the aesthetic ease of rounded corners. Soft, gentle forms and tactile, curved edges are a natural complement to the spaces we inhabit. The collection's arching silhouette conveys a sense of welcome, warmth and togetherness. Made from lead-free glass for a high level of brilliance and durability.
